

Our Lady of the Rosary School Song

1. Fresh are the faces that light up this place,
Fresh are the friendships we grow with good grace,
Fresh are our dreams as we gather as one,
Daring to live them with each rising sun. (Chorus)

And we celebrate community here,
Children and parents and teachers all share
In creating a new heart for God's ancient dream
Living and learning as one.

2. The prayers of the Rosary revisit the dream
That Jesus lives with us, through Mary he came,
Our Lady of the Rosary School leads us where
His living and dying and rising we share. (Chorus)

3. Our space is marked out by a border of trees
That allow in the breath of the gentle sea breeze,
The beauty around us sparks beauty within
As we grow and free, a fresh spirit now sings... (Chorus)

4. Mary gave birth to God's word long ago,
Now it's our turn to let Jesus' face show,
His mercy and justice, his humour and care,
Our gifts to each other with glad hearts we share. (Chorus)

5. As the magpies, galahs and corellas that fly
In and out of our space so our spirits now rise,
The talents and stories each one of us brings
Find a home in our school as with one voice we sing... (Chorus)
